Tired of Giving Feedback for Learners: Strategies for Learners to Improve IELTS Speaking Using Talk-to-GPT

Saturday, 27 July 2024 15:55 (1 hour)

Integrating modern technologies is essential in today's ever-evolving educational landscape to create engaging and personalized learning experiences. This workshop addresses the common challenge faced by English language educators: the fatigue associated with providing feedback on learners' IELTS speaking practice. Drawing upon innovative strategies, this session introduces the integration of Talk-to-GPT technology as a powerful tool for learner improvement. Attendees will explore how this AI-driven approach not only alleviates feedback burden but also empowers learners to enhance their speaking skills independently. This workshop focuses on the strategies of using the Voice mode in the ChatGPT app to revolutionize the practice of IELTS Speaking Skills for learners at home.
By the end of the session, participants will be able to:
- be aware of some principles and considerations in using prompts/questions to chat with ChatGPT
- use prompts/questions effectively to chat with ChatGPT using voice commands to ask for feedback for their IELTS Speaking Answers
