

Motivate Student's Attitude in Learning English through Online Apps

Thanks to advanced technology, study English has become easier and easier. However, in mountainous and remote areas, approaching to study English is still a difficult problem. For this current research, using online apps such as Quizizz or Blooket can help student engage in the lessons. To help student become more confident, more interested in studying English, we carried out the research with the topic "A research on Using online apps to motivate student's attitude in learning English" Results showed that students felt motivated when doing vocabulary or grammar exercises by these apps. They are also awaited to the next lesson with online apps. It is hoped that the findings of the study will be a suggestion for teachers and students who have the same difficulties in finding motivation to learning English
